

NJ CETP Training Schedule for 2010 – Updated June 2, 2010

Preparing & Installing Vapor Distribution Systems (4.2) – 3 days - \$360 per person

Tues-Thurs, July 27-29, 2010, 8 a.m.-4 p.m., Holiday Inn at East Windsor, NJ

Preparing tanks & cylinders for transporting, locating underground utilities & services, preparing foundations, installing DOT (exchange & stationary), aboveground ASME and underground ASME containers, manifolding, installing PE tubing & fittings, installing regulators, copper tubing, steel piping and corrugated stainless steel tubing, performing pressure tests on gas distribution lines, installing vapor meters, purging gas distribution lines, performing leak checks, placing appliances into service, documenting and recordkeeping, communicating safety information to customers.

NEW: Basic Principles & Practices in Propane – (1.0) – 2 days - \$260 per person

Thurs/Fri, August 12-13, 2010, 8 a.m.-4 p.m., Amarone's Windsor Inn, Windsor, NJ

Basic Principles and Practices is a prerequisite to the more advanced classes (except for Transport Delivery), and includes modules covering the physical properties and combustion characteristics of propane, identifying propane industry standards, safety codes and regulations, identifying the basic parts of tanks, cylinders, and bulk storage installations, maintaining a safe working environment, identifying commonly used hand tools and supplies, and serving the customer.

Appliance Installation (6.0) – 3 days - \$360 per person

Tues-Thurs, Sept. 7-9, 2010, 8 a.m.-4 p.m., Holiday Inn at East Windsor, NJ

Appliance Installation is a prerequisite to 7.0-Appliance Service. Appliance Installation covers placing propane utilization equipment into service, identifying the fundamental principles of venting and ventilation, pressure testing and leak checking propane piping systems, controlling propane/air mixtures for proper combustion, and sizing and installing natural draft venting systems.

Appliance Service (7.0) – 3 days - \$360 per person

Tues-Thurs, Sept. 21-23, 2010, 8 a.m.-4 p.m., Holiday Inn at East Windsor, NJ

Emphasizes troubleshooting skills basic to electrical circuits/ systems and controls that are incorporated into modern propane appliances. Successful completion of Appliance Installation is a prerequisite for this book.

Delivery (Bobtail/Cylinder Combo – 2.1 & 2.2) – 3 days - \$360 per person

Tues-Thurs, Oct 5-7, 2010, 8 a.m.-4 p.m., Holiday Inn at East Windsor, NJ

2.1 Propane Delivery Basics: Provides general information applicable to all drivers of cargo tank motor vehicles used to delivery propane, including DOT driver qualifications, personal protective equipment, CMT pre-trip inspections, verifying placarding, markings & inspections, flammable & combustible liquids, verifying the presence of odorant, handling CMV accidents, breakdowns & emergencies, parking/garaging of vehicles.

2.2 Bobtail Delivery: Identifying bobtail equipment and operating procedures, pre-unloading inspections, bulk plant loading/unloading systems & procedures, walk-around inspection of CTMV, purging propane containers prior to transferring product, handling out-of-gas calls & piping leak checks, evacuating ASME tanks, post-trip inspections, required monthly inspections, bobtail loading via compressor or auxiliary inlet.

2.4 Cylinder Delivery: Identifying features of cylinder delivery vehicles, preparing cylinders for storage & transportation, inspecting, evacuating and flaring cylinders, replacing valves & fittings on cylinders, requalifying cylinders, operating a dispenser, identifying DOT marking/labeling requirements, transporting DOT cylinders, operating a dispenser to fill vehicle-mounted ASME tanks, driving techniques, examining customer cylinders & installations, handling out-of-gas calls & leak checking piping systems, DOT exchange and motor fuel cylinder cabinet installation requirements, performing pos-trip inspections.
